

SCI Research Subjects Wanted

Heart Disease and SCI

We are currently looking for people who are interested in participating in our research about Heart Rate Variability and ECG abnormalities after spinal cord injury (SCI) and paralysis. Results from non-SCI participants will be used for comparison with individuals with SCI.

Who is Eligible: Men and women over 18 years of age with a spinal cord injury and paralysis.

Study Duration: 2 ½ hour appointment plus 24 hour monitoring (done while you participate in your normal daily activities).

Compensation: \$50- \$100 dependent on level of participation.

Interested?...
